

Micanopy Library Event Aug 16 2026

These photos are from the August 16, 2026, Alachua Co. Library event in Micanopy Fl. There were about 12 participants including the library administrator. Vicki Miller, W0VIX gave a presentation about the history of ham radio and how it is used today. We gave radio demonstrations and answered lots of questions. Everyone enjoyed the presentation. We made a HF contact to California on 20 watts using a portable vertical antenna and several VHF 2-meter contacts with local club members.

The other GARS club members supporting Vicki were, Ken Miller KF4ULO the event organizer, Kevin Miller, N1KLM, and Terry Gordon K4TMG. Also supporting the event at their home stations were Tom Warren KC8DHX and Andy Bryson KO4MLY.
